hoffdisplay

- base, side and top trim
- aluminum extrusions spec 6083
- anodized AA25

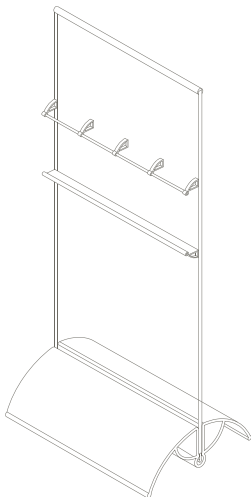

substrates

- (1) 10mm thick or (2) 5mm thick panels
- standard tempered glass with flat polished edges

literature and poster holder

- aluminum extrusions spec 6083
- anodized AA25

literature holder

hoff display accept either 2 x 3/16" or 1 x 3/8" tempered glass or other rigid substrates. The recommended panel heights are 50" and 60".

Posters can be displayed using an easy to use holder system. Digital prints can be sandwiched between 2 x 3/16" panels, with the acrylic panel version having connecting profile on top and both vertical sides. This stable, but easily moved system is available in several standard widths.

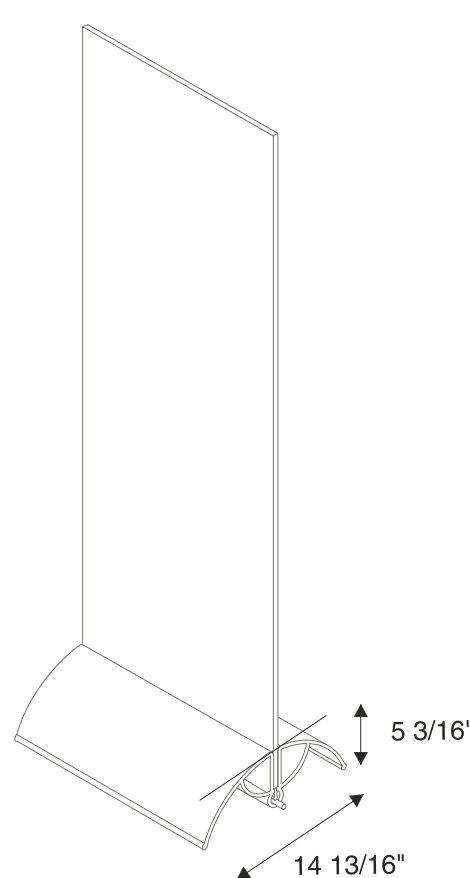

The standard finish is satin anodized, but custom colors can be provided on request.
