Cut Letter Series**

signs

d line Carl F

the signs group has created a new series of cut letters in 4mm brushed stainless steel, which are available from stock, making the letters and numerals economical to use on both large and small projects. the series compliments the design language of other building fittings and is available in upper and lower case characters with numerals.

the series comes in the classic typeface series:

Univers 55 Roman

and in two heights 75mm and 150mm. the smaller letters come supplied with heavy duty adhesive tape on the reverse along with simple to follow installations instructions. the larger series come with push fit polished nickel connectors that are screw fixed to the background and positioned with a template, which is also supplied as well as screw fixings on spacers, the adhesive option allows fixing to glass partitions and offers a non-invasive attachment which remains secure.

signs
d line Carl F

bespoke letters and logos are also available in other thicknesses and materials to special order. special letters tend to be expensive in when manufactured in small quantity but where a project needs the individual expression of a logo or particular typeface the design need can outweigh such concerns.

In addition to the special graphics, fonts and the standard typeface, the series also has a family of pictograms in the d line **dpicto** font, these are only available in 75mm high, tape fixed, as some pictos are made up of too many components to fix with the spacers. pictos marked with an asterisk should be installed with an acrylic templates to ensure correct spacing of separate parts, these need to be ordered separately

-  restaurant (ref. x2200)*
-  female WC (ref. x2202)*
-  disabled WC (ref. x2204)*
-  no smoking (ref. x2206)*
-  telephone (ref. x2208)*
-  first aid (ref. x2210)*

-  café (ref. x2201)
-  male WC (ref. x2203)*
-  cloakroom (ref. x2205)
-  smoking (ref. x2207)*
-  cleaner (ref. x2209)*
-  mail (ref. x2211)*

arrows are dual purpose and can be turned through 180 degrees

-  arrow left/right (ref. x2212)*
-  downleft/upright (ref. x2215)*

-  arrow up/down (ref. x2213)*
-  downright/upleft (ref. x2215)*
